Enzo+

LUBRICANTS

ENZO+ Brake Fluid Designed for use in the hydraulic brake and clutch systems of passenger cars and commercial vehicles. Recommended for all ABS, drum or disc brake systems which specify a DOT 3 or DOT 4 brake fluid.

Grades: DOT 3 , DOT 4

ENZO+ ATF TYPE A SUFFIX A is a high performance fluid for automatic transmissions in older vehicles. It is also used as a hydraulic fluid in unique applications.

ENZO+ Lithium based greases are premium quality multifunctional greases formulated using highly refined base oils & additives to impart superior oxidation stability, water resistance, anti-rust & anti-corrosion properties.

ENZO+ calcium base greases with a smooth and stony structure. They have good adhesion to metal surfaces, resists water washout and its displacement under shock loads. They are available in consistency ranges from NLGI 0 to 3 for various automotive and industrial applications.

Packing: 1 kg, 0.5 kg , 15 kg.
(Available in Plastic bucket and steel drum)

Ideal for:

ENZO+ Oil Treatment fights friction to help protect against engine wear by providing a thicker cushion between moving engine parts. This high-viscosity formula is specially formulated to help fight metal-to-metal friction by providing a thicker cushion between moving engine parts.

ENZO+ COOLANTS AND ENZO+ MOTOR FLUSH AVAILABLE
